

Haeata Community Campus - He Kōrero Ahurea "School naming narrative", gifted 2016, Approved by Ngāi Tūāhuriri Education Committee

The Haeata school narrative is based around the most important life-giving property, wai water. As a starting point, Ōtakaro was a name of significance to the former Aranui High School, so this was retained, and was included in the narrative, which links the buildings one to the other, telling the one cohesive story of the water from the source to the sea and beyond. The names refer to the journey of water from the source, through the steady flowing waters, to the significant mahinga kai source in the main waterway of Ōtakaro, through the shallow lagoon wet areas, to the significant mahinga kai estuary, and to the coast and beyond. All other names also fit with the theme around our waterways.

Using the various types and locations of those waters and the journey it takes is a metaphor for the learning journey our ākonga take at Haeata; from the initial beginnings at school, through the various learning stages with its turns, opportunities and changes, emerging at graduation at the sea that joins Aotearoa with the wider world beyond.

Our cultural narrative will be the foundation of our local curriculum in 2022 based around Te Marautanga o Aotearoa and the New Zealand Curriculum.
