

# He Korowai Manaaki

## Haeata Community Campus Positive Behaviour Management System

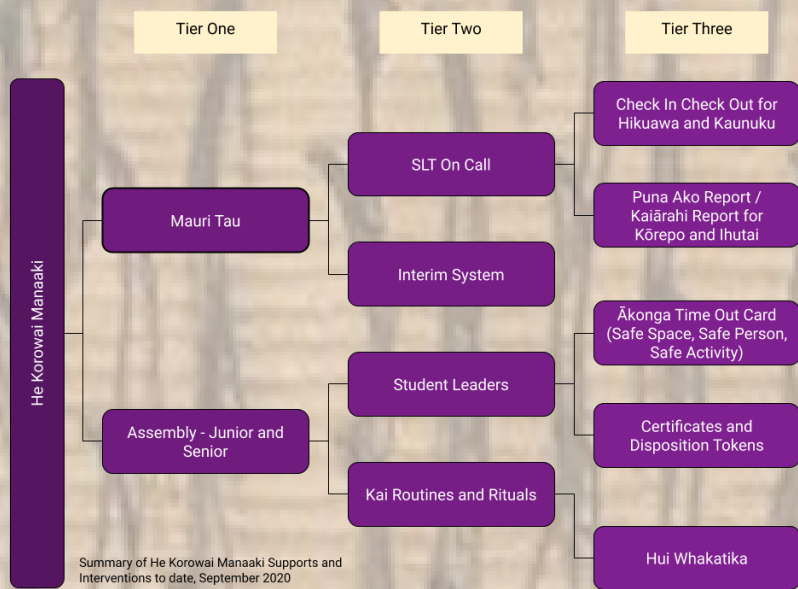

**He Ara Hauora** - All ākonga and staff at Haeata Community Campus come home to school every day. They will be safe, valued, respected and empowered to be who they are.

**He Korowai Manaaki** is the Haeata positive behaviour management system underpinned by our school **values, dispositions** and adheres to kaupapa Māori principles, concepts and values from a te ao Māori perspective.

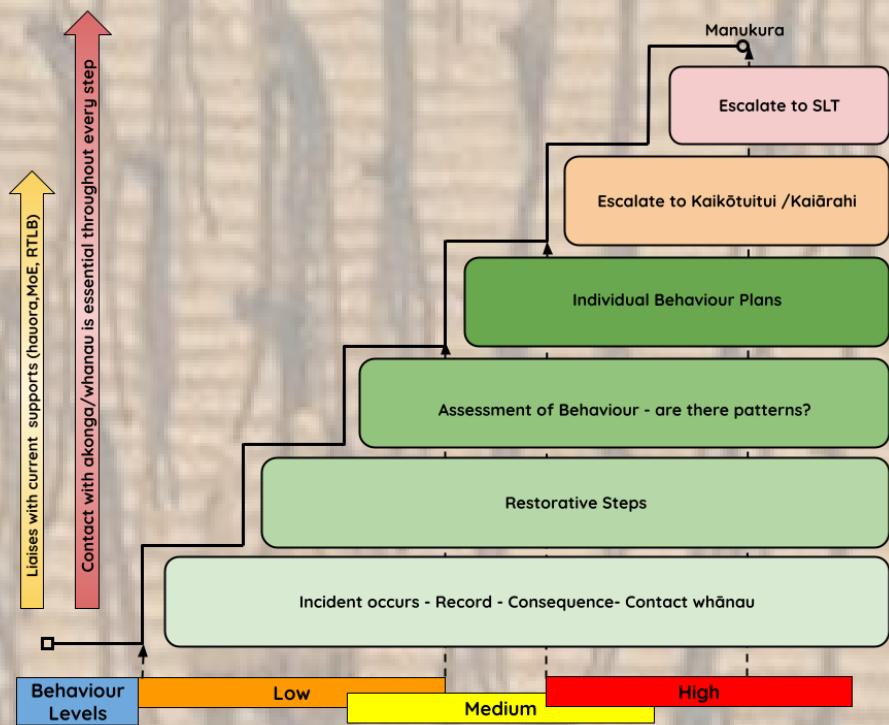

**He Awa Whiria** - a metaphor we have used describing a framework for drawing upon both western science and Mātauranga Māori with the main river being the kauapa of positive behaviour management.

The Ministry's Learning Support Delivery Model aims to strengthen how learning support is provided so that ALL mokopuna get the right support, in the right place, at the right time. We can identify a number of things we do at Haeata at each tier of support to positively support ākonga to understand what being part of the Haeata whānau means and how we all need to behave.

We use certificates in weekly assembly to give ākonga positive feedback and to acknowledge when ākonga display a particular disposition and the multiple ways of using that to celebrate learning and positive personal growth.

This flowchart / poutama shows each step of managing and responding to behaviour in He Korowai Manaaki. The red arrow shows the partnership with whānau at each step. Each step has been carefully explained so that we can implement He Korowai Manaaki consistently across the school. The steps highlighted in green show what the role of the Kaiako is in managing behaviour.

Ākonga need to know what the expectations are, be supported to learn what these mean and look like so that they can be safe and successful members of our Haeata whānau. The tīkanga brings to life the school values and dispositions within an authentic context.
